

# Man Down

Kelsey Hart

Usually I'm alright when it comes to a bad goodbye  
I just pick myself up again  
You could call me the comeback kid  
I could get a girl off my mind 99% of the time  
I know how to get out of a spot  
But boys, tonight we got

A man down at the bar  
All alone doing shots in the dark  
On this stool and I can't get up  
Somebody call 991  
Man, how does she know  
How to shoot a hole right through this broken heart?  
Can't catch a break  
Boy, that girl knows how to take a man down

It's gon' take the whole damn crew  
Pull me out of what I fell into  
Throw me in the truck and hit the gas  
I need help and I need it fast

There's a man down at the bar  
All alone doing shots in the dark  
On this stool and I can't get up  
Somebody call 991  
Man, how does she know  
How to shoot a hole right through this broken heart?  
Can't catch a break  
Boy, that girl knows how to take a man down  
Man down  
A man down  
Yeah

Yeah, it hit me right out of nowhere  
She said it's over like she didn't even care  
I bet her world's still spinning around but  
Over on this side of town there's a man down  
Man down  
A man down  
Yeah

Man down at the bar  
All alone doing shots in the dark  
On this stool and I can't get up  
Somebody call 991  
Man, how does she know  
How to shoot a hole right through this broken heart?  
Can't catch a break  
Boy, that girl knows how to take a man down  
Man down  
A man down  
Mmm  
Man down
