

Foreign Car

Kelsey Lu

There's no other like you
And no other like me
Switchin' lanes, I fill up
Ways to make ya like me

Metal, metal, metal, metal
Pedal to the metal, make you work (Car)
Metal, metal, metal, metal
Pedal to the metal, make you work
And we're risin'
The horizon's approachin' us, and...

I, I, I, I, I, I, I
Wanna drive you
Hard, hard, hard, hard, hard, hard, hard
My foreign
Car, car, car, car, car, car, car
My foreign
Car, car, car, car, car, car

Boy, no other loves you
Like no other loves me
Engine runnin' silent
Know you'll hear me cryin'

Pedal, pedal, pedal, pedal
Pedal to the metal, make you work
Pedal, pedal, pedal, pedal
Pedal to the metal, make you work
And we're risin'
The horizon's approachin' us, and...

I, I, I, I, I, I, I
Wanna drive you
Hard, hard, hard, hard, hard, hard, hard
My foreign
Car, car, car, car, car, car, car
My foreign
Car, car, car, car, car, car

Grippin'
Reachin' for somethin', you're holdin' me down, we're...
Slippin'
Holdin' the leather, then switchin' to Heaven
Heaven
Straight to the top, only angels can judge me
Foot off the brake, pedal signals can't stop me

I, I, I, I, I, I, I
Wanna drive you
Hard, hard, hard, hard, hard, hard, hard
My foreign
Car, car, car, car, car, car, car
My foreign
Car, car, car, car, car, car
