

Love & Validation

Kelsey Lu

Hold me closer
Hold me closer
Hold me closer
Hold me closer

I want you tonight
I want you to feel
I want you tonight
I want you to feel

Love and validation
Give me love and validation
Love and validation
Give me love and validation

Mmm, when I'm in it
I'm settled to break your fall
When you make the call
And when I'm better, and you make that call
I could lose it all
Cannot get you off my mind no matter how hard I try
I won't admit how much I put into this at all

Ooh, I'm falling for you
Hold me closer

Love and validation
Give me love and validation
Love and validation
Give me love and validation

I want you tonight
I want you to feel
I want you tonight
I want you to feel

Hold me closer
Hold me closer
Hold me closer
Hold me closer

Hold me closer
Hold me closer
Hold me closer
Hold me closer

I want you tonight
I want you to feel
I want you tonight
I want you to feel

Love and validation
Give me love and validation
Love and validation
Give me love and validation

Hold me closer

Hold me closer
Hold me closer
Hold me closer
