

Cover You

Kelsy Karter

When the night falls I wanna cover you with my love

Could've been headed for miles
But I got stuck on the way
I saw you dusted and dark
And knew that I had to stay
I like the way that you stride
Don't mean to fantasize
I'm getting sick for your touch
I wonder what it's like
You've got my head in the stars
And my heart on a chain

Try to push you away, I don't know how
On the edge of the cliff, think I'm fallin' down
Fade to black and there's no coming back now
Can't come back now

When the night falls I wanna cover you with my love
Hear the angels cryin' out when we become one
And I want ya, oh, and I need ya, oh
When the night falls I wanna cover you with my love

I'm not addicted to much
But I'm a junkie for you
You're a rush like sugar and cocaine
If I could I'd put you in my veins

Try to push you away, I don't know how
On the edge of the cliff, think I'm fallin' down
Fade to black and there's no coming back now
Can't come back now

When the night falls I wanna cover you with my love
Hear the angels cryin' out when we become one
And I want ya, oh, and I need ya, oh
When the night falls I wanna cover you

Your endless kiss sealed my fate
I'm too far gone to come back now
I give you myself today
I wanna cover you with my love
Your endless kiss sealed my fate
I'm too far gone to come back now
I give you myself today
I wanna cover you with my love

When the night falls I wanna cover you with my love
Hear the angels cryin' out when we become one
And I want ya, oh, and I need ya, oh
When the night falls I wanna cover you with my love
