

## Goodness Gracious

Kelsy Karter

I went and robbed the liquor store on Mars last night  
And then I told a couple million people a lie  
I'll admit that I like to make a scene  
I can tell that you like that part of me  
So if you dare me to jump, then I just might

What's this trippy feeling coming over me?  
Every time I see you, I get high

Goodness gracious, you're the one  
That makes me come back down to Earth when  
My mind goes on the run  
And all I wanna do is misbehave  
I'm floating far away from sanity when you're gone  
Goodness gracious, are you what I need?  
Maybe

I don't wanna know if I'm wrong or right  
Kinda wanna burn everything in sight  
Told my Daddy that I'd be in bed at 9  
But I stole his new car to see you tonight  
So if you dare me to crash it, I just might

What's this trippy feeling coming over me?  
Every time I see you, I get high

Goodness gracious, you're the one  
That makes me come back down to Earth when  
My mind goes on the run  
And all I wanna do is misbehave  
I'm floating far away from sanity when you're gone  
Goodness gracious, are you what I need?  
Maybe

Goodness gracious, you're the one  
That makes me come back down to Earth when  
My mind goes on the run  
And all I wanna do is misbehave  
I'm floating far away from sanity when you're gone  
Goodness gracious, are you what I need?  
Goodness gracious, you're the one I need  
Maybe
