

## New Recording 254 (Outro)

Kelsy Karter

Ready?

This house is bound to burn down in a day or two  
Gotta get the hell out of town and rocket to the moon  
We can't bear to live in fear  
We can't trust no one 'round here  
All we can do is run fast  
Grab my hand and don't, don't, don't look back  
It's just you and I from now on

Nothing in this world was made for me  
There's nothing anyone can give me  
Tryna convince me anywhere is safe  
But nothing anyone can say  
Could stop me from leaving, leaving, baby, yeah  
You only die once and we're not dying here

Not gonna die here  
Na-na-na, not gonna  
Not gonna die here  
Na-na-na, not gonna  
You only die once and we're not dying here  
Fuck it, that's going on the record
