

What U

Kelsy Karter

Baby
I know I know
I got you waiting
We're always talking
When we're faded
That common ground
I think we laid it laid it

Come on what's the deal
Come on got the feels
Come on it's so real
Is it real
What's the deal

Said goodbye to my ex
Are you gonna be next
What are you gonna do
If I open the door
Are you gonna walk through
Now you got me intrigued
But don't fuck with me
I got nothing to lose
Oh I'm getting too close
I might make a move
What u gonna do about it

Honey
You're talking bout me to your
Mummy
You must really really want me
When I'm gonna get that
Honey

Come on what's the deal
Come on got the feels
Come on it's so real
Is it real
What's the deal

Hey
Said goodbye to my ex
Are you gonna be next
What are you gonna do
If I open the door
Are you gonna walk through
Now you got me intrigued
But don't fuck with me
I got nothing to lose
Oh I'm getting too close
I might make a move
What u gonna do about it

Said goodbye to my ex
Are you gonna be next
What are you gonna do
If I open the door
Are you gonna walk through

Now you got me intrigued
But don't fuck with me
I got nothing to lose
Oh I'm getting too close
I might make a move
What u gonna do about it
What u gonna do about it
