

# Wild

Kelsy Karter

I, I've always been scared to  
Fall asleep before you every night  
Cause I was never prepared to  
Find forever in another's eyes

Broken hearts and hotel messes  
Wandering with no direction  
Looking for some arms to land in  
Better than I ever planned it

I'll be your wild child  
Love on the run  
So hold me closer  
I'm your loaded gun  
And I'll stand by you  
Till the day that I die  
If you keep me warm  
I'll keep you wild tonight  
If you keep me warm  
I'll keep you wild

Oh, I feel like I don't deserve you  
You're too good for a heart as dark as mine  
And all of the time that I've burned through  
Never had good luck on my side

Cigarettes and empty bottles  
Rockstars and their supermodels  
Sunset boulevard for miles  
Where I found you

I'll be your wild child  
Love on the run  
So hold me closer  
I'm your loaded gun  
And I'll stand by you  
Till the day that I die  
If you keep me warm  
I'll keep you wild tonight  
If you keep me warm  
I'll keep you wild...

I'll be your wild child  
Love on the run  
So hold me closer  
I'm your loaded gun  
And I'll stand by you  
Till the day that I die  
If you keep me warm  
I'll keep you wild tonight  
If you keep me warm  
I'll keep you wild tonight  
If you keep me warm  
I'll keep you wild
