no one

Kelvyn Colt

I used to say no one
Will gon' make it out, that's where I'm from
Try to get it right, I do you wrong
I thought it wasn't settled on me long, yeah
And I'd say no one

Tell me, do you know the feelin' when you're lonely?
You were robbed by the man, you were the only one
No one else around and pickin' up the phone, G
Fake friends phony, yes, I am a lonewolf (Yeah)
I feel amazing (Feel amazing), been about it (Been about it)
Sometimes I'm feelin' like that nigga from New Orleans
Sometimes I'm feelin' like I'm Graduation Kanye
Sometimes my ego got me humble, not just honest

Something's wrong, I can't see your face
But I can read your mind

I used to say no one
Will gon' make it out, that's where I'm from
Try to get it right, I do you wrong
I thought it wasn't settled on me long, yeah
And I'd say no one (No one)
Got down with the shit, got it done (Got it done)
No squad, no clique, no love (No love)
I don't bow my head for no one, no one, no one

All the smiles passing me by
But nobody noticed, inside I been dying
Don't you worry, I'll be fine
Es geht vorbei

I used to say no one
Will gon' make it out, that's where I'm from
Try to get it right, I do you wrong
I thought it wasn't settled on me long, yeah
And I'd say no one (No one)
Got down with the shit, got it done (Got it done)
No squad, no clique, no love (No love)
I don't bow my head for no one, no one, no one
