

Rapunzel

Kelvyn Colt

Yeah, yeah
Hey, I'm on the night club
Yeah, yeah, aye

Girl with the long hair I fuck with
The head hanging out the window
You would think it's Rapunzel
I got my funds up, so humble like funds worth
LH914 on me, that's Lutherans
That mean that I'm fly
TBHG carry me, I can't die
Walking on clouds, can't bury me alive
I used to crack him to play Suicide
I was scared of the night (Sheesh)
The story about love
Aye, find me on the top floor
This been hazin' like Tom Ford
In my final days, I will go out raw
I get nervous when I pass a cop car
Swear then when I was broke
My community in love with me for speaking the truth
The industry hoping that I choke

This be the reason I'm alone, yeah
This be the reason you and me don't rock no more
And this be the reason that I'm cold, yeah
This be the reason I do not answer calls

Ay, they cuss me out on this side
You know that I be getting up
Ay, they push me down on that side
You know that I be getting up, yeah
And even if they buss on this side
You know that I be getting up, yeah
'Cause I can never get enough
Bullet proof soul, come and hit me up
You don't fool, I ain't never giving up

Riding alone most of my days
'Cause I don't trust no one that comes across my way, yeah
I know they smile in my face
Behind my back, yeah, I know what they say
Yay said this and yay done that
And yay turn heard, but never call back
And yay owe him but never pay back
Got the new S-class, I heard this a Maybach
Skrr, skrr, yeah, had to switch up the lane
Same old number, bro, switch out the name
Don't try to claim that the checkers are fame
Try to fix you shit, boy, you still tryin' to blame

This be the reason I'm alone, yeah
This be the reason you and me don't rock no more
And this be the reason that I'm cold, yeah
This be the reason I do not answer calls

Ay, they cuss me out on this side

You know that I be getting up
Ay, they push me down on that side
You know that I be getting up, yeah
And even if they buss on this side
You know that I be getting up, yeah
'Cause I can never get enough
Bullet proof soul, come and hit me up
You don't fool, I ain't never giving up
