

Full Circle

Kem

Will we come back around?
Full circle, full circle (Full circle, full circle)
Did we forget what we found?
Full circle, full circle yeah (Full circle)

Used to wake up next to me, girl
Your perfume all over me, girl
Is this what it's supposed to be, girl
Or was it all just a dream? (Yeah)
Waiting on your reply (Your reply)
Three dots and no reply (No reply)
It's like we're passing by
The chance of a lifetime

Dance with me (Dance with me)
You used to dance with me (Dance with me)
Down on our luck, down on our knees
You used to pray with me (Pray with me)
Over you, I cant' get over you (Over you, over you)
I just can't see you not with me
After what we been through

Will we come back around? (Will we come back around?)
Full circle, full circle (Full circle)
Did we forget what we found? (Did we forget what we found?)
Full circle, full circle (Full circle, full circle)

Make up for how we parted (Parted)
Finish it how we started (Started)
Two perfect pieces put together
Never broken-hearted

Will we come back around? (Will we come back around?)
Full circle, full circle (Full circle, full circle)

Held each other down like weights, yeah
Took it high as we could take it
Summer nights and winter days, yeah
Love was on a full display, yeah
Waiting on your reply (Your reply)
Three dots and no reply (No reply)
Feelings we shouldn't hide
Come once in a lifetime

Dance with me (Dance with me)
You used to dance with me (Dance with me)
Down on our luck, down on our knees
You used to pray with me (Pray with me)
Over you, I cant' get over you (Over you, over you)
I just can't see you not with me
After what we been through (We've been through)

Will we come back around?
Full circle, full circle
Did we forget what we found?
Full circle, full circle
