

# Right On Time

Kem

Yeah  
I can't let it go  
Love 101  
Kemistry

Girl, have I ever told you  
I love you like a solider  
With each and every beat of my heart  
And I get from good to greater  
'Cause you're my motivator  
Girl, don't you know you're everything's everything

I want you to feel me  
I need you completely  
You make it better  
Girl, I'm wrapped in your arms  
Your love is amazing  
I cherish each day, babe  
I'ma cut these records  
With you I'm a star

Your love is right on time  
Girl, you know  
Your love is right on time  
Baby

Your love is taking over  
You keep me pushing forward  
I'm addicted to the sound of your name  
That's how I learn to listen  
When I feel the power shifting  
Girl, don't you know you're never gonna be the same

I want you to feel me  
I need you completely  
You got me open right from the start  
Your love is amazing  
I cherish each day, babe  
Love and devotion straight to my heart, baby

Your love is right on time  
Always on time, always, always, always  
Your love is right on time  
Kemistry  
Take it to the bridge

Girl, I got all the love you can stand  
It's you and me doing what we want  
We living that good life, so right  
You know how I like it, baby  
I'm your number one fan in the world

Fell in love with your kiss every morning night  
Staring at your photos when I be alone on flights  
So we can walk in the park after dark  
Let me look into your eyes until the magic sparks  
Or maybe grind with each other until we both get rich

I'll go and buy the team and let you throw the pitch  
I want to hang with your son, adore your mother  
I need you to have my back care for each other  
Pray you never shed tears, can I face your fears?  
Kings and Queens from ancient years  
Dreams of rings I'm so sincere  
Pull me close let me hold your wrist  
First a toast then a kiss  
It was that now it's this  
Love 101 I let 'em know the chemistry  
It's Ricky Ross I think it's time to let it be

Your love is right on time  
Baby, it's on time, baby, it's on time  
Your love is right on time  
Baby, it's on time, you're love's right on time  
Your love is right on time  
Baby, it's on time, baby, it's on time  
Your love is right on time  
Baby, it's on time, your love's right on time
