Finding Out

Kemuri

Everything is needed, so I take it!
Everyday is a new day so I face it right!
Makes me wonder why I have to deal with problems!
Even though it hurts me and brings me down!

Take it now! Take it now! To try is better than wasting the tim
e!
Take it now! Take it now! To keep walking is to keep on changin
g!

Tripping while walking! Sweat is dripping!
That is so much better than being a fake!
Let them laugh and let them do whatever now yeah!
They'll pay with pain! They will pay with pain!

Take it now! Take it now! A failure teaches without preaching!
Take it now! Take it now! Keep walking is to keep on changing!

Growing up! The pain is on my side!
A storm and freedom come together, so I take them!
Growing up! The pain is on my side!
I believe and I live in this given time!

Given time! On the line!
Given time! Given time!

Finding out! Finding is fighting for the future!
Finding out! Finding is fighting for the future!
Finding out! Whatever happens to me, I'll always keep going!
Finding out! Not only for myself!

Take it now! Take it now! To try is better than wasting the tim
e!
Take it now! Take it now! To keep walking is to keep on changin
g!

Growing up! The pain is on my side!
A storm and freedom come together, so I take them!
Growing up! The pain is on my side!
I believe and I live in this given time!
