

Calling a long distance to talk...  
Chasing your shadow in my heart, and in the darkest night  
Thinking about you smiling nice and soft  
Looking outside the light is brighter than the stars

Your voice comes out low and slow  
You say nothing special but you give me something  
Feeling you so close, close my eyes and laugh...  
Think of you...

Over the rainbow! (Go over the rainbow!) Something good is waiting!  
Every word you give makes my heart believe in it!  
Over the rainbow! (Go over the rainbow!) Something good is waiting!  
Every word you give shows me how wonderful the life is!  
The words you live with...

You make me try and try to make it  
I almost gave up on the things that now I am dealing with  
I long e-mail that you sent to me  
Gave me some power to believe! Believe in myself!

Like your dream will ease the pain  
Like your voice will dry all the tears for fears  
I will give you smiles...Could you take them and kiss me slow

Over the rainbow! (Go over the rainbow!) Something good is waiting!  
Every word you give makes my heart believe in it!  
Over the rainbow! (Go over the rainbow!) Something good is waiting!  
Every word you give shows me how wonderful the life is!  
The words you live with...

Like your dream will ease the pain  
Like your voice will dry all the tears for fears  
I will give you smiles...Could you take them and kiss me slow

Over the rainbow! (Go over the rainbow!) Something good is waiting!  
Every word you give makes my heart believe in it!  
Over the rainbow! (Go over the rainbow!) Something good is waiting!  
Every word you give shows me how wonderful the life is!  
The words you live with...

Somewhere out there!  
Something good is waiting, so open up the windows!  
Over the rainbow we will find something that does not fade  
Somewhere out there!  
Something good is waiting, so open up the windows!  
Over the rainbow we will find something that does not fade

Over the rainbow we will find!  
Over the rainbow we will find!  
Somewhere out there! Somewhere inside!
