You Gave Your Love To Me Softly

You gave your love to me softly

I heard your heart beating true

Still your Bijon lingers on and on and on

You gave your love to me softly

When I'm feeling blue and lonely

All I have to do is think of you

We had just one night but it lingers on and on and on

You gave your love to me softly

La la la you sang to me

Baby don't you cry

Put your arms around me child

And lay with me tonight

You gave your love to me softly

La la la you sang to me

Baby don't you cry

Put your arms around me child

And lay with me tonight

La la la

La la la

La la la la la la la
