Lose It

Ken Carson

Molly jaw lockin', I can't feel shit
I been poppin' pills all year, yeah
She been poppin' pussy like a pill, yeah
I said fuck the block I'm in the hills with the shit
I sip lean in your hood, but you know a nigga rich
I be lowkey, bustin' on with the shits
I put binaries on all my new sticks

All my hand guns, huh, huh, came with switches
My opps ain't on nothin', yeah, yeah, they all some bitches
C-O-D, U-A-V, I got the drop on all them bitches
I'm a hide some new thots when I'm in your city
Blacked out, Opium'd out, full Rick
Diamonds everywhere, yeah, this full kit
I'm all in her, yeah, yeah, this a full bitch
I know she can tell I been goin' through it
Yeah, I been goin' through it
The only way I express myself is through my music
Please don't push me to the edge, yeah, I'm 'bout to lose
I'm 'bout to lose, I'm 'bout to lose
'Bout to lose, I'm 'bout to lose
Huh, huh, huh, huh, huh, huh, huh, huh, huh, huh, huh, huh, huh
, huh, huh
I won't open doors for no hoes, I'm disrespectful
If I wanna talk, I'll let my choppa tell you a lecture
Let the choppa walk like a dog, it's gon' fetch you
He said that he fell off but that .223's catch him
She know I got them racks, it ain't enough for me to catch him
I been goin' through it
Me and all my hoes been gettin' to it
VETEMENTS new rock, yeah, on my toe these ain't no Louis
Even though I been swaggin', I been still goin' through it, yea
