Ken Carson

I'm a psycho, 'bout to show up for the bitch all night, ho  
Wrap his bitch-ass up like a gyro  
You get hit with this stick, too pyro  
We gon' shoot the fuck out of these lames  
Bet you never had a nigga like me, ho  
Shawty used to fuckin' with lames  
I'm used counting checks in private jets  
You know my phone on silent  
Pat the shawty my dog she ride it  
Don't want no new bitches they be conniving  
I drop outside I drop right on your bitch I'm diving  
I'm trying to reach a new level I'm trying

I'm trying to fly out that bitch to the islands  
We in Punta Cana  
Shawty just got a tan like she first out the sauna  
Oh you bad as hell you got your looks where you want them  
I don't pretend about my bitch I ain't with all the drama  
Bitch I pull out these drugs I'm a legend  
I'm at the top I'm looking down at all these peasants  
Lamborghini start  
I'm a real vampire can't catch me I fuck with  
Gambling with my life I'm trying to hit me a seven  
She tryna cost her new titties  
I can't these hoes these bitches  
Ain't stressing bout that pussy I don't need one to hit  
I just be focused on me yeah shawty say focus on me  
I just be rocking these shows coast to coast 500 a week  
I ran that shit up but I ain't never been to a track meet  
Lately it feel like money the only thing that attract me  
I need money the only thing that I'm attracted to  
I'm a send her do what I do  
I put them pounds on a plane and straight to Europe  
If we have a nigga keep popping that shit  
We gon put his bitch ass right on the mural  
But this how I get for sure  
I'm holding my shit for sure  
Stay off of these drugs I'm loaded  
These nigga can't catch I'm catching they hoes yeah
