## **Dancing**

## **Ken Hensley**

You're the heart that beats within me You're the one I'll never leave You're what makes my life worth living

And if the worst should come
And we must move to a different drum
We'll take it anyway
'Cause no matter what they say

We'll be dancing with the wind Dancing with the rain Dancin' to the beat of my heart Dancin' to the melody Ringin' in my head Nothing's gonna keep us apart

You are the sun, you are the moon You are my imagination We're gonna win, we just can't lose Not with all this inspiration

They can try and take our stuff
But they can't touch this special love
We're together come what may
And no matter what they say

We'll be dancing with the wind Dancing with the rain Dancin' to the beat of my heart Dancin' to the melody Ringin' in my head Nothing's gonna keep us apart
