

# The Cost of Loving

Ken Hensley

In the heat of the night when my heart is burnin'  
And I'm thinking out loud without too much to say  
Gotta soul full of need, passion and yearnin'  
But there's always a high price to pay

Why, when I need a little understanding  
Do I feel like I'm asking too much  
To make you reach for your heart  
I gotta reach in my pocket  
When all that I need is your touch

It's the high ...  
The high cost of lovin' you  
It's the high ...  
The high cost of lovin' you  
High cost of lovin' you

I want a permanent place in somebody's life  
Not a high priced affair, that's all yours  
I'm a man above all, I need someone to turn to  
Got feelings that won't be ignored

Now there's no turning back, no running away  
Don't they say that once bitten, twice shy  
And there's no point in talking  
You've got nothing to say  
You've got nothing that I want to buy

It's the high ...  
The high cost of lovin' you  
The price is too high ...  
The high cost of lovin' you ...

The high cost of lovin' you ...
