

## What a Lonely Night

Ken Laszlo

And now  
We are just talking about  
All I feel is enough  
And if you get it away  
Anyway, I'm giving you all my own  
But now I stay all alone  
Dreaming to hold you tonight  
I wanna be groove (uooooo)  
And dont make me true (uooooo)  
After believe in you  
Why dont you come  
You need your love at here  
Inside my heat, inside my mind.  
And I want to feel (uooooo)  
That it's getting real (uooooo)  
Don't wasting your time  
Cause I depend on you  
You know I cannot do  
Without your love  
And tell me why  
You'll be a lonely night  
And now, that I cant stop loving you  
Let me know what I can do  
Keep this so long every day  
Anyway  
This love is fallin apart  
Now that you've broken in my heart  
what can I find in my way
