

## Fade Out

Kendra Morris

Fade off, fade off, fade off, fade out far along  
Quietest as the dayline breaks then we're gone  
Tell them I feel like I'm back where I belong  
Until we're gone

Slowly I'm leaving it behind

Who did who did who did who did you so wrong?  
It's just another chip you got on your own  
Take it or leave it, you didn't pack so light  
It's never gone

Bowing down to games we love  
Playing the fool we play the part

Fade off, fade off, fade off, fade out far along  
Quietest as the dayline breaks then we're gone  
Tell them I feel like I'm back where I belong  
Until we're gone
