

Playing Games

Kendra Morris

Girl you sleeping, you losing your mind
Don't you know a good man is hard to find
I give you my money, I give you my time

Girl you said, "Let's meet on Monday"
Then you said, "On Tuesday"
My name ain't The Joker
And it ain't April Fools day
Just because you fine baby
I ain't gonna let you use me
Keep playing games with me
Fuck around and lose me

I get the feeling when I call you
It seems like anything I tell you
Ain't right, ain't right
Not here and you don't wanna talk
You... hang up on the wall
I fight, we fight

All day, side to side
Ain't all that's missing on me, on me
Maybe with the right
With the right girl you'd see, it's easy

No more playing games, playing games
Playing games, yeah you, yeah you
Shame, shame, know your name
What's your name? What's your name?
What's your name? Be true
Yeah, yeah, yeah

With a tug boat, it's like I'm dragging you home
Race car, please tell me when you want me tonight
Each night, hey
Street signs, telling us to go slow
Stop - and still we run through every light
Every light

All day, side to side
Ain't all that's missing on me, on me
Maybe with the right
With the right girl you'd see, it's easy

No more playing games, playing games
Playing games, what you want?
Hey you, you want it, you got it, you know
Shame, shame, know your name
What's your name? What's your name?
Know your name, be true

Let you tell it girl
I'm the one who played games
But ever since we've been together
Life ain't been the same
The spark in your eyes
Shine like a blue flame

It's all about you baby
I don't want no other dames
You the heart, I'm the arrow
That's about to take aim
Busting and fighting
Baby that shit is lame
Say it's me, I say it's you
But who the one who take the blame
Your pictures on my wall
In a heart shaped frame

No more playing games, playing games
Playing games, hey you, hey you, you got it, I know
Shame, shame, know your name
What's your name? What's your name?
What's your name? Be true
I got it, I gotta make you understand, yeah

No more playing games, playing games
Playing games, what you want?
Hey you, hey you, hey you
Shame, shame, know your name
What's your name? What's your name?
What's your name? Be true
