

## Someone Else

Kendra Morris

I thought we could be the greatest  
I thought we could lead the rest  
No one ever thought to mention  
You were someone else's best

I let my  
Spirit fall apart  
When I heard that you were  
Tied to someone else's heart

I'm gonna wait it out  
Gotta get through somehow  
You in my head made me feel good  
(You made me feel good, baby)  
You in my life felt so right  
(You know you did, you know you did, you know you did now)  
You had promised me the oceans (going on forever)  
Then turned, gave them all away

Why do I cry  
When lies are all that you left?  
I hope you can sleep well with the  
Stories you told on your chest

I'm gonna wait it out  
Gotta get through somehow  
I'm gonna wait it out  
Gotta get through somehow

I'm gonna wait till it happens  
(I'll never wait for you)  
Never too late, I'll get through  
(I'll never wait for you)  
I'm gonna wait till it happens  
(I'll never wait for you)  
Gonna get through, what I'll do
