

You walk around like everything is in control
Favor come with favors and you can't say no
Go out the way to make the coin available
That's what I call love
The closest ones afraid to say they need some time
The turnaround is life or death, but you don't mind
Go out the way to say you made the compromise
That's what I call love

But the time it'll come to not be there when somebody needs you
You say no and all you've done gives them amnesia
One thing I've learned, love can change with the seasons

And I can't please everybody
No, I can't please everybody
Wait, you can't please everybody
No, I can't please everybody
I can't please everybody

They idolize and praise your name across the nation
Tap the feet and nod the head for confirmation
Promise that you keep the music in rotation
That's what I call love (That's what I call love)

But the time it'll come (But the time it'll come)
To not be there when somebody needs you (When somebody needs you)
You say no and all you've done gives them amnesia (They don't remember)
One thing I've learned, love can change with the seasons

And I can't please everybody
No, I can't please everybody
Wait, you can't please everybody
No, I can't please everybody
And I can't please everybody
No, I can't please everybody
Wait, you can't please everybody
No, I can't please everybody

Heavy is the head that chose to wear the crown
To whom is given much is required now
Heavy is the head that chose to wear the crown
To whom is given much is required now

Love gon' get you killed (Love gon' get you killed)
