

## Redemption Interlude

Kendrick Lamar

You love it when I fall on my face  
Don't act so surprised when  
I'm in, oh, rightful places  
Ain't it righteous? Amen (amen)

This time around, there's time to turn it around  
This time around, there's still time to turn it around  
This time around, there's always time to turn it around  
This time around (this time around)

Sky keep falling down  
Falling down (Black Panther)  
I keep falling down  
Falling down  
I keep falling down  
Falling down  
Sky keep falling down
