

# I'm Gone

Kenna

Oh well, there's no free lunch

Pumping like my own adrenaline  
Lazy vultures circle around my head  
Revolution won on the radio  
The static buzz is harsh, worse than my room's TV snow

Everything's good, I am gone  
Nervous and wasted thankfully  
Happiness is being numb  
I am gone, I'm gone

Bonnie Brown's letting them in  
Laughing comes, making friends  
The Volvo room writes the songs  
While the giant plum plays along

Everything's good, I am gone  
Nervous and wasted thankfully  
Happiness is being numb  
So I am gone, I'm gone

Everything's good, I am gone  
Nervous and wasted thankfully  
Happiness is being numb  
So I am gone, I'm gone

Surprise, surprise  
How t-t-t-time flies  
When all is right  
Surprise, surprise  
S-s-s-s-surprise  
I'm getting by

(You don't know me)  
Do do do do do do  
My, my  
(Nobody can tell me)  
Nobody can tell

(You don't know me)  
Si ti da woh  
Si ti krad woh  
(I don't care)  
Oh well, oh well  
(Hey)

Everything's good, I am gone  
Nervous and wasted thankfully  
Happiness is being numb  
I am gone, I'm gone

Everything's good, I am gone  
Nervous and wasted thankfully  
Happiness is being numb  
So I am gone, I'm gone

Everything's good. I am gone  
Nervous and wasted thankfully  
Happiness is being numb  
So I am gone, I'm gone
