Fall in Love

Kenny Chesney

A Little country church on a 2-lane road A Bride and a Groom, comin' out the door White lace dress, and a red boquet "Just Married" written on a blue chevrolet

Don't that make you want to fall in love?
Don't that look like a picture of us?
A match made in heaven, if there ever was
Don't that make you wanna fall?
That just makes me wanna give you my heart
Ever forever needs a place to start
Gotta be a sign from up above
Don't that make you wanna fall in love

Old folks sittin' in a front porch swing Still holdin' hands like they were 16 50 good years they were a lovers dream Darlin' that could be you and me

Don't that make you want to fall in love?
Don't that look like a picture of us?
A match made in heaven, if there ever was
Don't that make you wanna fall?
That just makes me wanna give you my heart
Ever forever needs a place to start
Gotta be a sign from up above
Don't that make you wanna fall in love

Well, now don't that make you want to fall in love?
