How Forever Feels

Kenny Chesney

Big orange ball, sinkin' in the water Toes in the sand, couldn't get much hotter Little umbrella shaped margaritas Coconut oil, tannin' senioritas Now I know how Jimmy Buffet feels

Hands on the wheel, cruisin' down the interstate Gas pedal sticks, carries my car away I was going fast as a Rambler goes I could feel the speed from my head to my toes Now I know how Richard Petty feels

I've been around the block a time or two Done almost everything a boy can do I've done some livin', yeah I've had fun But there is one thing that I haven't done

Saved two months, bought a little diamond Tonights the night, feels like perfect timin' Down on one knee on momma's front steps Man I'm gonna die if she really says yes I wanna know how forever feels

I've been around the block a time or two Done almost everything a boy can do I've done some livin', yeah I've had fun But there is one thing that I haven't done

I wanna know how forever feels Hey, I wanna know how forever feels Girl, I wanna know how forever feels
