

# Scare Me

Kenny Chesney

I'm not afraid of lonely  
I've gotten good at being that  
Ain't seen nothin' that could hold me  
Say good-bye and don't look back

Running, always ready  
Feel as strong and steady  
But you scare me

Took a long walk after midnight  
Trying to make sense of it all  
Tried to catch a glimpse of my old life  
But your face was all i saw

Blue eyes staring through me  
Baby, what are you doing to me  
You (never felt this before, it's all brand new to me, never known anyone) scare me  
You (i'm doing what i said i would never do, too late to stop it now) scare me

Knowing there's no turning back  
Knowing I don't want to

Baby you (never felt this before, it's all brand new to me, never known anyone) scare me  
You (I'm doing what I said I would never do, too late to stop it now) scare me  
Scare me  
Scare me  
Baby you scare me  
Scare me
