Wild Child

Kenny Chesney

Looks like royal in a thrift store dress Keeps my heart and her hair a mess She goes where the wind suggests she goes, who knows Got a spirit that can't be tamed She's a calico pony on an open plain I know I'll never be the same no more, for sure

She's a wild child Got a rebel soul with a whole lot of gypsy wild style She can't be tied down but for a while I'll be falling free and so in love Might break my heart but God she drives me wild child

You've never heard of her favorite band unless you Been to Bonnaroo or Burning Man She's Penny Lane in a Chevy van, she loves to love

She loves me wild child Got a rebel soul with a whole lot of gypsy wild style She can't be tied down but for a while I'll be falling free and so in love Might break my heart but God she drives me wild child

She'll be here until she runs Some just have to chase the sun

She's a wild child Got a rebel soul with a whole lot of gypsy wild style She can't be tied down but for a while I'll be falling free and so in love Might break my heart but God she drives me wild child

A kaleidoscope of colors in her mind child A touch of crazy hides behind her wild smile So simple yet experimental Innocent but still a little wild child

Wild child
