

# Always Remember

Kenny Lattimore

Always remember, I'll be here waiting  
You know  
Always remember

I could watch TV tonight or I could practice my smile  
I've got nothing else to do since you're not here by my side  
Now my time is dedicated to wondering where you are  
Hoping all is well with you, so far...

I could not believe you'd up and leave me  
Just when I thought we had the perfect love  
I may be a fool but I'll leave a light outside for you  
As an invitation home and a welcome when you do

Always remember, I'll be here waiting  
You know  
Always remember

I know circumstances often call for making a change  
And I must admit at times I've felt like giving you space  
But the only way I'd ever go is moments at a time  
Then I'd hurry back to be by your side

Nobody knows, til you've been lonely  
Quite what it feels like when you lose your love  
But now that I do, I'm swearing to you I'll be alone  
Til you get yourself together and decide you're coming home

Always remember, I'll be here waiting  
You know  
Always remember

Sometimes we only need, someone to believe that we're worth it  
all  
I'm that someone for you whatever you're going through  
Not to judge you just to love you

Always remember, I'll be here waiting  
You know  
Always remember
