

Climb the Mountain

Kenny Lattimore

You make me smile, you make me sing the very thought of you
Keeps me flying in the sky
It's such a thrill oh how it feels it's like a precious dream
Upon a magic carpet ride
For you my love runs deep, the depth of any sea
On this earth
I'll travel anywhere to be within your care, you're all I need
Can't you see why

I'd climb the mountain swim the sea
Yes I will
As long as you're waiting for me
The two of us
The two of us were meant to be
Just like the flower blooms in the air of June

When you're not here I'm so alone it's like a sad story
When a loved one goes away
But when you're near it's pure and clear my heart is filled with joy
Stay in my life for always

I'd climb the mountain swim the sea
Yes I will
As long as you're waiting for me
The two of us
The two of us were meant to be
Just like the day turns to night and the stars shine bright

I'd climb the mountain swim the sea
Yes I will
As long as you're waiting for me
The two of us
The two of us were meant to be
Just as we breathe and live with the life God gives

And I won't let you go I need your love so bad
Stay with me in my heart Say you'll never part

I'd climb the mountain swim the sea
Yes I will
As long as you're waiting for me
The two of us
The two of us were meant to be
Just as we breathe to live with the life God gives

I'd climb the mountain swim the sea
Yes I will
As long as you're waiting for me
The two of us
The two of us were meant to be
Just like the day turns to night and the stars shine bright
