

## Look of Love

Kenny Lattimore

Summer goes, winter's slow  
Autumn leaves, but you're still around, Yeah  
My feelings grow, because you know  
How to captivate a crown  
When you turn on that smile

The look of love  
You wear it well  
Baby love looks good on you  
I know you've got it on, I can tell  
Cause you always look brand new

Yeah  
The wind it blows and the snow is gone  
But raindrops dance on my window pane  
Whenever you put it on  
You shine like a charm should  
I hope your wardrobe doesn't change  
Oh girl, keep it right there sugar  
I'm loving your swag baby

The look of love  
You wear it well  
Baby love looks good on you  
I know you've got it on, I can tell  
Cause you always look brand new

Love looks good on you  
Girl I love your energy  
You're doing something now  
I total new identity  
When you turn on that smile  
Even before you make your move  
Girl your presence alone, that will do  
Love looks good on you

The look of love  
You wear it well  
Baby love looks good on you  
I know you've got it on, I can tell  
Cause you always look brand new
