

Push

Kenny Lattimore

I'll admit that I was wrong
You deserve better, better, babe
No doubt that I was meant for you
All the time I spent with you, babe
Now don't mean a thing, no

What is done we can get it back
We can fight and fight and fight
That'll ruined my mind

I pushed you away
Worst move I made
Oh you, I gotta get you back
Can't deny this pain
After everything I gained
Oh you, I gotta get you back

Seems like day to day
My breath has gone away
Lifeline you were
All mine you were
Now it hurts to think that
Someone has a chance
Another heartless romance
Cycle of love wasted again

What is done we can get it back
We can fight and fight and fight

But that'll ruined my mind

I pushed you away
Worst move I made
Oh you, I gotta get you back
Can't deny this pain
After everything I gained
Oh you, gotta get you back

I know material things won't win you
(Just feel like it's not too late)
If I'm holding on nothing
At least it felt worth it
Guess it's the fear of starting over
Until then, I'm not giving up

Pushed you away
Think about every day, I

I pushed you away
Worst move I made
Oh you, gotta get you back
Can't deny this pain
After everything I gained
Oh you, gotta get you back

Oh, gotta get you back
Gotta get you back

I gotta, I gotta, get you back
