

Tonight (2 Step)

Kenny Lattimore

First I wasn't gonna go out to the club
But as you can see, I've changed
(You've changed)
My mind
(Your mind)
I'm in the dancing mood
To find our groove
I'll do me
(Girl, you do you)
And we can start this party tonight

Even if you gotta bite your bottom lip, snap your fingers
Fellas, cling to her
Sing to her
Do your thing with her
(It's a love groove!)
Yeah
(Flowing through the airwaves)
It feels so good
I'm loving this feeling

Tonight
Let's forget about our troubles
And we'll dance just like we're lovers
Let's 2 step in sync
From left to right, slide away, bring it up
What the club needs now is to break it down
Oh, tonight, yeah!
Let's forget about our troubles
And we'll dance just like we're lovers
Let's 2 step in sync
From left to right, slide away
Slide, oooh (bring it back)
What the club needs now is to break it down

Oooh! Ain't it good to you, baby
Simple as A, B, C
1, 2, 3
Ahhh, the groove has got me deep into the beat, yeah
Feel it all in my feet
Just watch my bumps and follow me

Don't be scared just go on 'head and dip with it
If you trip brush it off, keep kickin' it
Aw, you coughed. Set is ya'll's. So ridiculous
Ya'll crazy
It's a love groove!
Flowing through the airwaves!
And it feels so good
I'm lovin' this feeling

Tonight
Let's forget about our troubles
(Let's dance like we're lovers)
And we'll dance just like we're lovers
(I wanna 2 step)
(2 step in sync)

(From left to right, slide away, bring it back)
Bring it back
What the club needs now
(Bring it back)
Is to break it down!

Tonight
(Let's forget about our troubles)
Take my hand, baby
(And we'll dance just like we're lovers)
Dance, baby! Dance, baby!
(2 step in sync)
From left to right
(slide away, bring it back)
What the club needs now is to break it down
Go!

You don't have to step alone
Step in sync and take it home
Yes, you got it
You will see
You got talent to your feet
Oooh, you got talent, baby
From left to right, slide away, bring it back
What the club needs now is to break it down

You don't have to lead me home
(Alright, girl, you hooked that lion)
I'm already too far gone
(Thank God, baby)
Plus you got me in a zone
Let's 2 step and take it home
(From left to right, slide away, bring it back)
What the club needs now is to break it, break it down, yeah

Tonight! Yeah
(Let's forget about our troubles)
(And we'll dance just like we're lovers)
(2 step in sync)
That's what I wanna do
(From left to right, slide away, bring it back)
What the club needs now is to break it down

Tonight
(Let's forget about our troubles)
(And we'll dance just like we're lovers)
(2 step in sync)
Oooh, from left to right
(Slide away)
Slide it
What the club needs now is to break it down

Tonight
Tonight I wanna step and slide the night away
(Let's forget about our troubles)
(And we'll dance just like we're lovers)
Tonight I wanna so I'm gonna prove...
(2 step in sync)
...I wanna, I wanna dance with you, baby...
