

# Vulnerable

Kenny Lattimore

Sunrise, feel alive when I'm by your love  
Everything's better with you  
Chemistry's strong, we share a heart  
Hold on, girl, I'll never harm you  
Secure when I'm in you

What is love, if I never met you?  
Ooh, you got something special  
Your touch is euphoria  
Anything I do for you  
It's from a pure place  
I know you feel it  
I know you feel it

We can go, across the moon  
Wanna get, lost with you  
Swim in your water tonight  
Darling we gotta be vulnerable

Put your guard down  
Put your guard down

Clouds not high enough for us, no  
To feel I love you, I won't give up, no  
Something you do to me  
Picture of your beauty in my mind

What is love, if I never met you?  
Ooh, you got something special  
Your touch is euphoria  
Anything I do for ya  
It's from a pure place  
I know you feel it  
I know you feel it

We can go, across the moon  
Wanna get, lost with you  
Swim in your water tonight  
Darling we gotta be vulnerable

We can go, across the moon  
Wanna get, lost with you  
Swim in your water tonight  
Darling we gotta be vulnerable

Show me your heart  
I'm not afraid of your flaws  
Let's drown in each other  
All of our secrets  
All of our weaknesses  
I'm not reckless. I'll be your protection

We can go, across the moon  
Wanna get, lost with you  
Swim in your water tonight  
Darling we gotta be vulnerable

We can go, across the moon  
Wanna get, lost with you  
Swim in your water tonight  
Darling we gotta be vulnerable

We can go, across the moon  
Wanna get, lost with you  
Swim in your water tonight  
Darling we gotta be vulnerable

We can go, across the moon  
Wanna get, lost with you  
Swim in your water tonight  
Darling we gotta be vulnerable

Put your guard down  
Put your guard down
