You Have My Heart

Kenny Lattimore

Stop analysing where we are
Cause weeks to us feel like forever
Some people say it's premature
Girl this love I had is solely yours

But as long as the sun keeps shining baby
It'll be that way, don't you ever worry girl
And as long as the world keeps turning baby
(You have my heart)
Every little piece of my heart

Why discourage yourself with questions baby?
Cause the way we blend so natural
There's no need for second guessing lady
When the way feel is so mutual

But as long as the sun keeps shining baby
It'll be that way, don't you ever worry girl
And as long as the world keeps turning baby
(You have my heart)
Every little piece of my heart

There's no reason to keep holding back
(Stop holding back)
You and I both know we're the perfect match
Give in, complete me girl
Stop holding up our love
Step out the way cause you got
(Every little piece of my heart)

But as long as the sun keeps shining baby
It'll be that way, don't you ever worry girl
And as long as the world keeps turning baby
(You have my heart)
Every little piece of my heart

But as long as the sun keeps shining baby
It'll be that way, don't you ever worry girl
And as long as the world keeps turning baby
(You have my heart)
Every little piece of my heart
