

# I Miss Us

Kenny Loggins

Look at us and the life that we made  
Oh darlin', I wouldn't trade a single thing  
Still in love  
But I can't help dream about yesterday, oh yesterday

I miss Sunday mornings free and easy  
Lazy days and endless evenings  
I really thought somehow  
That I'd be over it by now

And I miss lying in your arms till morning  
With nothing on our minds but making love  
Baby most of all  
I miss us

Like a child, I know it is selfish to say  
But sometimes I want you all to myself  
For a while  
Couldn't we go back and play in yesterday, oh yesterday

Walking on the beach alone together  
Sunsets that would last forever  
No where else to be  
Side by side just you and me

And I miss lying in your arms 'til morning  
With nothing on our minds but making love  
Baby most of all  
I miss us

All that we have lost  
Has all come back as love  
I know that's what family is about  
Still I miss

Sunday mornings free and easy  
Lazy days and endless evenings  
I know we'll survive  
But it is eating me alive

And I miss lying in your arms till morning  
With nothing on our minds but making love  
I can't hold it back another minute  
I'm embarrassed to admit it

But I still want to be your everything  
I know all that life has given us  
Is way more than enough

But darlin' I can't help myself  
I just love you too much  
Baby most of all  
I miss us
