

Me and ya Bitch
Me and ya Bitch
Me and the dawgs fresh off a lick
Fresh off a blitz
Grew up in halls covered in piss
Covered in bliss
Cover your ears cover the cost
Cover the rent

Who in the fuck want it with us?
We want it with them
Shawtya duck, if he don't duck
He gone disappear
Me and the mutts running amuck
Get it on film
I got a mop in the ride
Can't give my mama a ride
I think her heart'll decline
Bitch I grew up in a cold world
I think I'm part of the climate
Someone jus shot up the scene
I can see particles flying
We don't know how to be quiet
We don't know how to be quiet
We don't know how to be quiet

Who in the fuck
Who in the fuck
Who in the fuck
Want it with us?
Want it with us
Who in the fuck
Who in the fuck
Want it with us?
Want it wit us
Who in the fuck
Want it with us?
Want it with...

Eyes up, I'm ahead of da curve
Parked truck on da edge of da curb
Sparked up bitch I'm ready to surge

Racked up bitch I'm ready to burn
Ask bruh if he ready to burn
Masked up we ain't scared of no germs
Eyes heavy in da air wit da birds
I'll tell you when you ready to learn

I can hang in the air with this shit
Don't you hang at the edge of the pit
I can face every level they give
I can say what they'd never admit
Concentrate on whatever you wish
Split the cake with whoever you with
Who the fuck thing they fucking with this?
We gone bang on whoever you pick...

Who in the fuck
Who in the fuck
Who in the fuck
Want it with us?
Want it with us
Who in the fuck
Who in the fuck
Want it with us?
Want it wit us
Who in the fuck
Want it with us?
Want it with...
