

Anything At All

Kenny Rogers

I can do anything that I want
If I just put my mind to it
I can follow any dream and make it come true
If I just believe I can do it

Oo-oh, build me a mountain so high
Reach right on up through the clouds if I try
Oo-oh, spread my wings and I'll fly
Right on up to the top of the sky, said I

Oh, I can do anything that I want
Anything at all
I can do anything that I want
Anything at all

I can build castles out of concrete or sand
If I just put my mind to it
And I can sing cause I got feelin'
You can too if you're just willin'
You can, you can, you can

Oo-oh, build me a mountain so high
Reach right on up through the clouds if I try
Oo-oh, spread my wings and I'll fly
Right on up to the top of the sky, said I

Oh, I can do anything that I want
Anything at all
I can do anything that I want
Anything at all

I can do anything that I want
Anything at all
I can do anything that I want
Anything at all

Oo-oh, spread my wings and I'll fly
Right on up to the top of the sky, said I

Oh, I can do anything that I want
Anything at all
I can do anything that I want
Anything at all

Yeah, I can do anything that I want
Anything at all
I can do anything that I want
Anything at all

Anything at all
Anything at all
Anything at all
Anything at all
