

If Only My Heart Had a Voice

Kenny Rogers

In my life there had been
Lots of loving, so few friends
Wasted romance, wasted time
No lessons learned, so you keep in mind

Nothing ventured, nothing gained
No nothing grows without some rain
So let me give more than I take
Small price to pay for my mistakes

Oh listen to the beating of your heart, it's rhymed with mine
There's a symphony inside us and our love is keeping time
So the song we dance, we're dancing like we really have no choice
And I would sing the perfect song if only my heart had a voice

Now life's too short and life's too long
To be somewhere you don't belong
So call it chance, or call it fate
But finding you was worth the wait

Oh listen to the beating of your heart, it's rhymed with mine
There's a symphony inside us and our love is keeping time
So the song we dance, we're dancing like we really have no choice
And I would sing the perfect song if only my heart had a voice

In your eyes I can see
Love's reflection perfectly

Oh listen to the beating of your heart, it's rhymed with mine
There's a symphony inside us and our love is keeping time
So the song we dance, we're dancing like we really have no choice
And I would sing the perfect song if only my heart had a voice

So the song we dance, we're dancing like we really have no choice
And I would sing the perfect song if only my heart had a voice
And I would sing my song if only my heart had a voice
