## Maybe You Should Know

## **Kenny Rogers**

Seems to me that weâllve been friends forever We spend our time together as all good friends will do But the silence only lies, if you could read my eyes They hold another feeling I could show you.

Maybe you should know just how much I love you In my life thereâlls no one else above you Maybe I should hope, you find out for yourself somehow Or maybe I should tell you now.

Maybe I should wait and take my chances A good dancer never dances, until he hears the cue But the orchestra is gone, theyâDDve left us all alone ThereâDDs no one here to tell me how to tell you:

Maybe you should know .... Maybe I should tell you Maybe I should tell you now.
