

# Somewhere Between Lovers And Friends

Kenny Rogers

Somewhere between lovers and friends  
Well, baby, tonight if we take it any closer  
We might sleep right off the edge  
We gotta stay here  
Somewhere between lovers and friends.

We gotta hold back ( our love will be stronger )  
Hold back ( stay a little longer )  
Somewhere between lovers and friends.

Moonlight dancing in our eyes tonight  
About to lose our self control  
I think we'll both know when the time is right  
So right now let's both admit it  
We got trouble if we forget it, we're.  
Somewhere between lovers and friends.

We gotta hold back ( we're heading for the fast lane )  
Hold back ( we got trouble if we don't stay )  
Somewhere between lovers and friends.  
I think we'll both.

We gotta hold back ( it's gonna make our love stronger )  
Hold back ( we gotta stay a little longer )  
Somewhere between lovers and friends .

We gotta hold back ( we're kind a-heading for the fast lane )  
Hold back ( we got trouble if we don't stay )  
Somewhere between lovers and friends.
