

That Crazy Feeling

Kenny Rogers

It's not just the way you say hello whenever we should meet
That keeps my heart pounding like the ocean of the deep
But it's got my heart a reeling, oh yes, I've got that crazy feeling.

It's not just the way you kiss me with that twinkle in your eye
That makes me want to love you and never say goodbye
But to me it's appealing, oh yes, I've got that crazy feeling.

Who can explain that the way you look on my life
That makes me think about you all the time
Oh, who can explain that just what makes me know
Darling, I want you to have love and to hold.

Though it's not just the way you comfort me when I feel blue and low
That makes me want to love you and never let you go
But it's got my heart a reeling, oh yes, I've got that crazy feeling,
Oh yes, I've got that crazy feeling ...
