

There's a Lot of That Going Around

Kenny Rogers

I've told myself a million time
I'm strong, heart and soul
And I don't tend to fall in love
No not me, I've got control

But then before I know it
I am looking into your eyes
And the room gets warm and starts to spin
And I feel the fever rise

It must be love, love
There's a lot of that going around
And I think I've got it (I think I've got it)
I think I'm coming down with love
There's a lot of that going around

I guess I knew what I was asking for
By asking you to stay
But by the time I fell into your arms
It was too late anyway

All that love that I was fighting for
Found it's way inside
And when love is out to get you
There's no place to hide

You can't hide from love, love
There's a lot of that going around
And I think I've got it (I think I've got it)
I think I'm coming down with love, love, love
There's a lot of that going around of love
There's a lot of that going around
