

This Love We Share

Kenny Rogers

Woke up from a bad dream
I thought I saw you walkin' away
Sat up, heard myself scream
In desperation I called your name

Then gently you reached out for me
Said it's alright, it was just a dream
But baby, you don't know
If you left me it would drive me insane

I know you've said it a thousand times
You'll love me til the end
But darlin', I've just got to hear it again

I never want to lose this love we share
The world out there gets lonely
I never want to lose this love we share
If you weren't here to hold me
Oh, my life would be over with tonight, I swear
I never want to lose this, lose this, lose this love we share

Don't blame me for being
A little bit afraid that you'll leave
You know that you're the best thing
That could've ever happened to me

And any man would act like this
If he knew half my happiness, oh baby
Got to hold you
You know you're just too good to believe

I know you've said it a thousand times
You'll love me til the end
But darlin', I've just got to hear it again

I never want to lose this love we share
The world out there gets lonely
I never want to lose this love we share
If you weren't here to hold me
Oh, my life would be over with tonight, I swear
I never want to lose this, lose this, lose this love we share

I call your name
Reach out to me, baby
You've got to wake me up
And show me it was just a dream

You know, my life would be over with tonight, I swear
I never want to lose this, lose this, lose this love we share

I never want to lose this love we share
The world out there gets lonely
I never want to lose this love we share
If you weren't here to hold me

I never want to lose this love we share
The world out there gets lonely

I never want to lose this love we share
If you weren't here to hold me

I never want to lose this love we share
The world out there gets lonely
I never want to lose this love we share
If you weren't here to hold me
