When You Put Your Heart In It

Kenny Rogers

We knew it was one in a million It was such a long shot Somehow we'DDve got here together And who knows what will happen Anything can happen If we keep getting better And we keep on believing.

When you put your heart in it It can take you anywhere Who'DDs to say that we can'DDt make it It'DDs the same dream that we share When you put your heart in it It can take you anywhere.

This road was so long and winding It was such a hard road But we can'DDt stop once we had started We were always getting closer Suddenly it happens A chance in a lifetime Now we'DDre gonna take it We can make it.

When you put your heart in it
