

Better With Time

Kenny Wayne Shepherd

Remember when we were 18
We knew that we knew everything
A couple steps forward and a few more back
Till we ran our train right off them tracks
Along the way we learned a few things

Sure as the sun burning up in the sky
The man up in the moon who's turning the tides
I've come to [?] all the lows and the highs
It's a hell of a ride
It keeps getting better with time
Oh, better with time
Oh, better with time

Got a few more lines on my face
But there ain't a single one I'd erase
Well, every [?] got a tale to tell
About lessons learned while going through hell
Brought me where I am today

Sure as the sun burning up in the sky
The man up in the moon who's turning the tides
I've come to [?] all the lows and the highs
It's a hell of a ride
It keeps getting better with time
Oh, better with time
Better with time
Better with time

Every second, every minute
That this crazy world is spinning
And I see that loving look in your eye

Sure as the sun burning up in the sky
The man up in the moon who's turning the tides
I've come to [?] all the lows and the highs
It's a hell of a ride
It keeps getting better
It keeps getting better
Well it keeps getting better with time
Better with time
Better with time, yeah, yeah
Better with time
Better with time
