

## G String

Kenny Wayne Shepherd

You know, I was in the casino gambling one night  
And I won some money  
Called my baby up, I said  
"Baby, I'm coming home in a couple of minutes  
And we're going someplace"  
She said, "Well, what we gonna spend?"  
She didn't know I had won the jackpot  
I didn't tell her until I walked in the house  
She said, "What time are you coming home?"  
I said, "4:30"  
She said, "It's 4 o'clock now"  
I said, "I know, I'll be there in 30 minutes"  
When I walked in the house  
She didn't know I had enough money  
I said, "Baby"

I've been waiting all year, it's time to get a break  
We're going somewhere, little girl, so we can play  
I'm going somewhere, little girl  
I'm gonna take you out in the dark  
We're gonna have some fun, fun out in the park

Where I'm going  
You don't have to pack too much  
You know, all you have to bring, little girl  
Is a G-string and a toothbrush

I know a little place down Highway 51  
You and I can go down there, have a whole lot of fun  
We can sit in the car, listen to the radio  
Crawl in the backseat, little girl  
Let your feet hang out the door

Where we're going  
Well, we don't have to pack too much  
Well, all you have to bring, girl  
Is your G-string and a toothbrush

Where we're going, little girl  
We don't have to pack too much at all  
We're going someplace, we're gonna have a ball  
When you wear that dress, make sure you wear it short  
'Cause the less you wear, the less I have to take off

We're going somewhere, girl  
You don't have to take too much  
All you need to bring, little girl  
G-string and a toothbrush
