Hey, What Do You Say

Kenny Wayne Shepherd

If I could put myself at ease for awhile
Maybe I could learn to appreciate your smile
I got a lot to give but I never give enough to you
Oh to you

I'm not tryin' to make you feel uncomfortable
And I'm not trying to make you go away
All I really want to do is be with you
For awhile or just today
I said hey, what do you say

Now dont you tease me, dont you mess me around
I got alot of friends and I dont need one now
So baby don't you let me down

If you could just let yourself just...slip away
Don't have to think about it till some other day
Just a temporary game that we're gonna play
I say hey, what do you say

I'm not tryin' to make you feel uncomfortable
And I'm not trying to make you go away
All I really want to do is be with you
For awhile or just today
I said hey, what do you say
